

Waterways Lake Fountain Run Times.

- The run times are a balance between power usage, the visual spectacle the fountains provide, and noise from the fountains when they are running. No 1 lake fountain is at the end of Waterways Bvde, No 2 at the end of Burdekin Bvde.
- Run times are the same for every day of the week.
- The lake fountains do not operate unless there has been no wind gust over a set speed for at least 20 minutes. The setting and the exposure to wind are different for the two installations, so they won't always be on or off together. The **“high wind shut-off”** period is to minimise spray from the fountains blowing onto houses, people using paths around the lake, and Cafe patrons.

Jetty/ pillar Lighting

- On at Sunset
- Off 10PM

Lake Fountains

- Start 2 hours after sunrise, run for 1.5 hours
- Start midday, run for 1 hour
- Start 2 PM, run for 1 hour
