NOTICE - FIRE ALARM TESTING

Dear Residents,

Please be advised that on the date and time indicated below, authorized personnel from the Fire Alarm System maintenance service provider will be on site at Marinascape Community to perform fire alarm inspection (Sounders & Output Testing) as part of the routine Planned Preventive Maintenance. During this time, the alarm sounders will be activated for several minutes as well as repeated evacuation messages shall be heard. This will be repeated during the testing period multiple times.

Date of Inspection: 09 April 2018
10 April 2018

Time of Inspection: 09:00 AM to 04:00 PM

These inspections are required by the local fire marshal, fire codes, and national standards. With your help, we can get the required inspection done with as little as possible discomfort to you.

Note: If the sounders are recurrently operating for more than 5 minutes during the test period and if the ‘Evacuation Messages’ are activated, then this is a genuine evacuation indication and all occupants must follow the evacuation procedures immediately.

For rectifications works within Apartment Units, Building Management will be contacting the residents to grant permission for access to apartments.

We apologize for the inconvenience caused during the time of testing and appreciate your cooperation.

We would like to thank you in advance for your help and understanding.

Best Regards,

Mansions Management.
